PROFILE

I'm Trisha Minela, a senior Computer Science student with a fervent passion for web design and object oriented programming. Over the years, I've combined my design prowess with programming acumen to develop websites and programs that bridge aesthetics with functionality.

I also have a background in programming, with expertise in HTML, CSS, JavaScript, Java, C++, Ruby, and Python. This knowledge has allowed me to combine my design skills with programming skills to develop websites and programs that bridge aesthetics with functionality.
